LaSalle Solutions to showcase LAMP at Gartner IT Financial Procurement & Asset Management Summit in Texas, Nov. 2-4

GRAPEVINE, TX, Nov. 2, 2015 — LaSalle Solutions, a leading provider of life-cycle management services, announced today that the company will be exhibiting in Booth 406 at the Gartner IT Financial Procurement & Asset Management Summit 2015. LaSalle is a Silver Sponsor of the event, which will take place Nov. 2-4 at the Gaylord Texan Hotel & Convention Center in Grapevine, Texas (near Dallas).

The summit is a place for the IT financial, procurement and asset management community to connect and share ideas, experiences and best practices on the latest topics relevant to the field. Gartner analysts will present interactive, hands-on sessions addressing ways to optimize costs, maximize value of existing investments, minimize risk and make informed decisions about new purchases.

This year's summit is focused on providing practical, actionable advice to help IT asset management (ITAM), procurement, financial management and vendor management professionals lead the change required to deliver innovation, cost optimization and collaboration in their organizations.

LaSalle Solutions will be demonstrating LAMP, its market-leading cloud-based toolset, in Booth 406 at the Solutions Showcase. LaSalle will also participate in Monday's "Fast Forward 60 seconds or Less Snapshot" session as well as the Showcase Theater Session at 6:15 p.m. to talk about how LAMP helps solve customer problems through improved processes, access, reporting and information transparency.

"We are very happy to be exhibiting at this year's summit," said Steven Robb, president of the solutions group at LaSalle Solutions. "We're excited to show visitors how LAMP can help their organizations cut through the noise to better manage their IT assets and maintenance contracts and drive better business outcomes."

LAMP enables customers to view and manage their maintenance contracts and asset information in one place and in real time. With LAMP customers quickly and efficiently report on and plan for equipment operations, migrations and upgrades. Customers using LAMP experience decreased downtime, compliance assurance and

improved operational business outcomes. LAMP is available on any browser, iOS or Android device, delivering information when and where the customer needs it.
