LaSalle Solutions Renews Cisco Advanced Technology Specializations

ROSEMONT, Ill., May 23, 2016 — LaSalle Solutions, a leading provider of technology lifecycle management services, announced today that it has renewed its Cisco Specializations for Advanced Collaboration Architecture, Advanced Data Center Architecture and Advanced Enterprise Networks Architecture. These specializations recognize that LaSalle has again fulfilled the training requirements and program prerequisites to sell, design and deploy comprehensive Cisco solutions for the Collaboration, Data Center and Enterprise Networks Architectures.

As a Cisco Advanced Specialization partner, LaSalle Solutions has invested in the training required to deliver differentiated business value through the foundation of the Collaboration, Data Center and Enterprise Networks Architectures. Cisco Advanced Specialization Partners work with new and existing technologies to align components of these architectures with their customers' strategic goals, helping transform business processes, boost organizational efficiency and accelerate the time to market.

"We are proud to once again receive Cisco Specializations in the Advanced Collaboration, Data Center and Enterprise Networks Architectures," said Steven Robb, president of the solutions group at LaSalle Solutions. "These specializations show our continued dedication to providing customers with the connection, collaboration and data center tools they need to meet the needs of their organizations."
