LaSalle Solutions to showcase LAMP, ServiceNow Integration at Knowledge16 Conference in Las Vegas

LAS VEGAS, May 16, 2016 — LaSalle Solutions, a leading provider of life-cycle management services, will be exhibiting in Booth 1327 at Knowledge16, ServiceNow's industry-leading gathering of service management professionals, May 15–20 at the Mandalay Bay Convention Resort in Las Vegas. At the event, LaSalle Solutions will showcase LAMP, its market-leading cloud-based toolset that seamlessly integrates with the ServiceNow service management platform.

Knowledge16 brings together service management professionals from around the world to discuss how ServiceNow is revolutionizing the modern service experience across an enterprise. The conference offers attendees the chance to learn how the service revolution can help them drive change within their organizations. More than 11,000 attendees are expected at the event, including ServiceNow customers, executives, sponsors and exhibitors.

"This is our first time at a Knowledge conference, and we're excited to show everyone how our LAMP platform's automated integration with ServiceNow can provide actionable information about their assets and contracts," said Steven Robb, president of the solutions group at LaSalle Solutions.," said Steven Robb, president of the solutions group at LaSalle Solutions. "Service management is changing the way that people do business, and we want to ensure that our customers have the right tools and methodology to improve processes and get the most out of their data."

The LAMP ServiceNow Integration is designed to enable automated synchronization of asset data between a customer's ServiceNow instance and the LAMP platform to ensure accurate tracking and continual monitoring of the customer's assets and service contracts. Through integration with LAMP, customers can enhance asset and configuration management database (CMDB) data in ServiceNow to ensure that it is up-to-date and does not become static and inaccurate.
