LaSalle Solutions Unveils LAMP Scan to Boost User Productivity

Chicago, IL, USA – March 6, 2011 – LaSalle Solutions, a leading provider of IT life-cycle asset management services and tools, introduced LAMP Scan to help customers boost productivity and extend and empower their workforce.

LAMP Scan helps customers perform critical functions associated with their business IT goals and objectives with a press of a button. A patent pending mobility tool, LAMP Scan enables customers to instantly audit data centers, track inventory, validate asset and contract information and complete the RMA process whether in the data center or on a loading bay, by asset or site.

"We are pleased to add this powerful tool in our LAMPSM toolset," said Steven Robb, Vice President and General Manager of LaSalle Solutions. "We feel LAMP Scan will become integral to our customers' business processes, providing a quick and easy way to input and manage the life-cycle of their assets."

LAMP Scan was unveiled this week at Cisco Americas Services Learning and Leadership Conference, in Las Vegas, Nevada. Availability will be end of second quarter 2012.
