LaSalle Solutions sponsors 2017 Spring HCP Conference in Miami

Miami, Fla., Feb. 27, 2017 — LaSalle Solutions, a leading provider of technology lifecycle asset management services, is sponsoring and presenting at the 2017 Spring Hospital O.R. & Surgical and Supply Chain Conference, taking place today through Wednesday, March 1, at the Hyatt Regency in Miami.

The Health Connect Partners (HCP) conferences bring together executive-level hospital and healthcare providers from America's most prestigious hospitals for networking and industry-leading educational sessions. Provider and supplier attendees will also take part in the Reverse Expos, with the providers manning exhibit booths while suppliers walk the floor in a unique reversal of the traditional tradeshow format.

LaSalle will participate in several HCP events throughout the year to spotlight their equipment leasing programs as well as their asset and contracts management services.

"We're excited to show attendees how LaSalle can help them better meet the complex technology requirements that so many healthcare organizations face today," said John Drake, vice president of leasing sales at LaSalle Solutions. "The conference brings together some of the best minds in the industry, so it's a great opportunity to connect and exchange ideas. We look forward to building upon the relationships we developed at last year's conference and to creating some new ones."

LaSalle will host a hospitality suite tonight in the President's Room of the Hyatt convention center, and Drake will be speaking at tomorrow's DUAL Education Session at 4 p.m.

LaSalle Solutions serves several hospitals and medical practices across the U.S. The company provides its customers with lifecycle asset management for IT, radiology, laboratory and other medical equipment, with flexible leasing options and technology operations management services such as LAMPSM, LaSalle's cloud-based asset, leasing and maintenance contract management toolset.

About LaSalle Solutions

Founded in 1980, LaSalle Solutions is a leading provider of technology lifecycle asset management services. LaSalle enables its customers to improve their technology operations through enhanced processes, management and reporting for better planning and return on investment.
