LaSalle Solutions to Showcase LAMP at Cisco Live 2014

San Francisco, CA., – May 19, 2014 – LaSalle Solutions, a leading provider of life-cycle management services, announced today that the company will be exhibiting in Booth #311 at the upcoming Cisco Live 2014, Cisco's annual IT and communications conference being held May 18-22 in San Francisco. At the event, LaSalle Solutions will be showcasing LAMP, its market-leading cloud-based toolset that provides versatile solutions for asset and contract management.

Cisco Live offers a unique combination of in-depth technical education, training and cutting-edge insight from the experts and organizations that are setting the agenda for the future of technology and business. LaSalle Solutions' expertise delivers a complete solution, complementing Cisco's solutions, for asset discovery, management and maintenance contract accuracy and optimization.

"As a valued member of the Cisco ecosystem and recently recognized as US Services Partner of the Year, we are proud to be once again exhibiting at Cisco Live this year," said Steven Robb, president of the Solutions Group at LaSalle Solutions. "Visitors to our booth will be able to talk with LaSalle team members to learn more about our enhanced collaboration, database management and technology innovation solutions and see first-hand that LAMP is *the* contracts management tool enabling better reporting, planning and process to increase their business efficiency and ROI."

LAMP is available for desktop, laptop and mobile devices to extend the experience from the office, data center, delivery door, or anywhere customers need to work. LAMP provides tools to search, view, or modify an asset's location, contract information, or learn more about a device or migration paths. LAMP and the LaSalle

Solutions team help customers optimize results and better manage their business more economically and effectively. Customers demand better and LaSalle delivers.
