## LaSalle Solutions Joins CrowdStrike's Elevate Partner Program

*Companies to Deliver a Compelling Combination of Next-Generation Endpoint Protection, Threat Intelligence and Response Services*

**ROSEMONT, Ill., Aug. 10, 2016** — LaSalle Solutions, a leading provider of technology lifecycle management services, announced today that it has joined CrowdStrike's Elevate Partner Program and global network of strategic partnership. Customers will have access to LaSalle offerings and CrowdStrike's industry-leading next-generation endpoint protection platform, threat intelligence and response services to help customers stop breaches.

LaSalle Solutions will offer CrowdStrike's Falcon Overwatch and Falcon Host, both of which are intended to help businesses ensure the readiness of their cyber security posture to detect and prevent attacks.

The CrowdStrike Falcon™ Platform has revolutionized the way organizations stop breaches and dramatically advances customers' ability to fight off persistent and sophisticated cyber threats. The company recently announced the addition of a broad set of sophisticated and easy-to-use APIs to support customers and partners' ability to integrate and gain immediate value out of the technology with no added cost, friction or complexity.

"We are very proud to join CrowdStrike's Elevate Partner Program," said Steven Robb, president of the Solutions Group at LaSalle Solutions. "With so many new cyber threats and security breaches being reported every day, we want to ensure that our customers have the technology they need to protect their organizations against attacks. We work closely with our customers and partners to develop and implement comprehensive security solutions and customize them to meet each organization's needs. With CrowdStrike's Falcon Overwatch and Falcon Host, our customers will have the insight and intelligence to prevent and detect attacks of all types."

The CrowdStrike Elevate Partner Program provides technology partners, solution providers, system integrators and managed service providers with the capability to deliver bespoke solutions to customers. Along with the CrowdStrike Orchestration

and Automation initiative and the introduction of new and updated APIs via CrowdStrike Falcon Connect, partners can seamlessly integrate their solutions with CrowdStrike's Falcon Platform. Joint customers of LaSalle Solutions and CrowdStrike have access to combined, advanced capabilities that leverage all of the existing assets within a customer's environment, allowing them to operate their security efforts in a more efficient and effective manner responding to security threats faster and with greater accuracy.

### **About LaSalle Solutions**

Founded in 1980, LaSalle Solutions is a leading provider of technology lifecycle asset management services. LaSalle enables its customers to improve their technology operations through enhanced processes, management and reporting for better planning and return on investment. LaSalle Solutions' processes, outstanding customer service and powerful, market-leading cloud-based toolset, LAMP, enable customers to obtain better business outcomes through transparency and reliable results at their fingertips.

LaSalle Solutions is a subsidiary of MB Financial Bank, N.A., a commercial bank headquartered in Chicago. MB Financial Inc. is the publicly traded holding company for MB Financial Bank, N.A. and is traded on the NASDAQ as "MBFI."
